

K3 IDENTITY

Enterprise Identity & Access Management | ICAM | Zero Trust

CAPABILITY STATEMENT

Company Overview

K3 Identity LLC is a specialized identity and access management consulting firm helping organizations design, modernize, integrate, secure, and support enterprise authentication and access platforms. K3 Identity combines hands-on engineering depth with architecture-level expertise across commercial and federal ICAM environments.

Core Capabilities

- Identity & Access Management (IAM/ICAM) architecture and engineering
- Single Sign-On (SSO), federation, MFA and passwordless authentication
- PingFederate / PingAccess implementation, upgrades and troubleshooting
- OAuth 2.0, OpenID Connect, SAML 2.0 and SCIM integrations
- Zero Trust identity modernization and access policy design
- Cloud and hybrid identity integration across AWS, Azure and enterprise directories
- Production support, incident resolution, health assessments and remediation

Technology Expertise

Ping Identity • Okta • Microsoft Entra ID • SailPoint • CyberArk • AWS • Azure • Active Directory • LDAP • FIDO2 / Passkeys • PKI / PIV / CAC

Why K3 Identity

- Deep enterprise IAM specialization
- Architecture through production operations
- Complex federation and protocol troubleshooting
- Federal ICAM and high-assurance authentication experience
- Vendor-neutral approach focused on business outcomes

Engagement Models

Advisory • Project Delivery • Staff Augmentation • Fractional IAM Architecture • Production Support
